

Construction Alert:

Soil Improvements Work Starts This Month

As part of the **Wall and Soil Improvements Project**, crews will begin 4–5 months of soil strengthening work in August to improve ground stability in the project area (**see map**).

This work will reinforce the soil to help protect against shifting from earthquakes or heavy rain, supporting the long-term safety of current and future infrastructure.

To support activity, work hours have been extended:

- Monday–Friday
- 7:00 a.m. – 7:00 p.m.

Expect increased truck and machinery movement near the site and associated noise due to the activity.

See reverse for ways to stay connected! ➡

Stay in-the-know by signing up for alerts by subscribing to the “Huntington Beach Plant Construction” topic.
