

Working in the wastewater industry can be extremely rewarding since you are protecting public health and the environment while providing a much needed and valuable service to the community. The Orange County Sanitation District offers careers in a wide range of fields. If you're looking for a job that is challenging and provides the biggest rewards, then a career in Wastewater could be for you.

ABOUT US

The Orange County Sanitation District is a public wastewater agency that provides collection, treatment and recycling services for 2.6 million people in central and northwest Orange County. With the 192 million gallons of wastewater collected, OCSAN produces soil amendments for agricultural use, methane gas to fuel our treatment facility, and provides 130 million gallons of water to be recycled.

We are governed by a Board of Directors comprised of elected representatives from 20 cities, four special districts and the County of Orange.

OUR MISSION

"To protect public health and the environment by providing effective wastewater collection, treatment, and recycling."
